

The Story of a Mother

A mother, nine months pregnant and about to deliver her precious child, unknowingly walks into a "**foundling** hospital".

(Since 1908 all hospitals are deemed foundling hospitals in the United States. The Legal definition of the word "foundling" is a safe place to **abandon** a child.)

The mother goes through a major medical procedure, commonly known as childbirth! She is in extreme pain, "under duress", Often under the influence of painkillers, just happily looking forward to getting home with her bouncing baby.

When she is brought and handed a stack of papers to "sign" and merely told "that these are just to give your baby a name and register it with the State".

So, Without any "*full and honest disclosure*", of the "*terms and conditions*" of the "*securities contract*".

Without a "*Meeting of the minds*". She "signs" as an "**informant**".
(The Legal definition of the word "*informant*" is "*someone who gives someone else up to another*".

Thereby, under the false and fraudulent doctrines of
"Parens Patriae" (State is Parent) and "In Loco Parentis" (Crazy Parenting),
She unknowingly gives "equitable title" to the State(s)
Department of Human Resources.

Forever to be known as "**Human Capital**", or "**Chattel Property**". (ie. a Slave)

The "**NAMED VESSEL**" (*PERSONA*) is "**Reg-i-'star'-ed**" (given a *FLAG*) a **CUSIP** number (an SEC Regulated investment control number) is created.

A **Cestui Que Vie Trust** is set up under the PUBLIC CHARITABLE TRUST through a "BANK" where it "issues reserved" (Certificate) and is "Bonded and Insured" (Birth Certificate).

What is an "issues reserved"? It is a Federal Reserve Note (\$ Loan). A Debit
What is a "Insured Bond"? It is a United States Treasury Bond (B). A Credit

A "Balance Sheet" is created!

In other words...

The "**NAMED VESSAL**" comes out of the sea "**water**" is tugged through the birth "**canal**", where it is "**docked**" by the Doctor, ie. "**Dock-tender**". Where it is "**inspected**" a "**bill of lading**" is "**presented**". And a "**Manifest**" is "**issued**".

The "**NAMED Vessel**" is then sent with the "tug", "out to sea" presumed lost and assumed dead, until it returns to pay its "tax" and claim its "goods"

...the "Person" is traffic-ked in commerce

.....

**While the baby...
"a living soul"
is sent home to live with its mother!**

Until... (it claims it's minor estate).
